## A WORD ABOUT THE FIRST SALE OF THE GALERIE DES MONNAIES IN NEW YORK

After years of successful operations in Switzerland and Germany, we have opened an American numismatic branch. The «Galerie des Monnaies of Geneva Ltd.» will concentrate on foreign and ancient coins and hopes to offer a personal service to the collector who wishes help and guidance in the selection of rare and fine numismatic items, in a relaxed atmosphere.

In this, our first American auction, we have started a system, new in the United States, but proven to be successful in many European countries. In this catalogue, you will notice two price columns — the first the MINIMUM or RESERVE price, UNDER WHICH THE COIN WILL NOT BE SOLD, and the second column, the estimated values. These values have been carefully checked out by our staff. The cataloguing was done in our Geneva office.

**All coins will be shown during the sale.**

**All coins can be bid by mail.**

We wish you all a successful sale.

Bernth Ahlstroem  
President

## Terms of sale

1. This sale is a public auction; in submitting your bids you have accepted the terms of this sale. The terms apply to all bidders, those who bid in person and those who bid by mail, as well as those bidding for a third party.
2. This sale is conducted by a licensed and bonded auctioneer.
3. All coins, medals and other items offered in this catalogue are guaranteed to be genuine and as described. All photographs are of the actual items being sold.
4. Auction sales are not APPROVAL sales; all coins have been classified by numismatic experts and while errors will be gladly corrected, NO LOTS MAY BE RETURNED WITHOUT WRITTEN PERMISSION. Rev: Crowned arms Scholten in his book on THE COINS OF THE DUTCH OVERSEAS TERRITORIES notes: The so-called shipguilder and its fractions were struck at Enkhuizen in 1802 and they were intended for use at the Cape of Good Hope. As early as Nov. 7, 1793 the States General was requested to deliver  $\frac{1}{2}$ ,  $\frac{1}{4}$ ,  $\frac{1}{8}$  guilder to the Cape. Not until April 26, 1802, was the mintmaster authorized to strike these coins and others for the acc. of the Council of the Eastern Possessions and Settlements . . . When these coins arrived at the Cape, there was a British Administration that did not want to permit the importation and they were sent to Batavia. The Cape coins once introduced in Batavia remained Dutch East Indian money Scholten lists gold proofs under 489, 491, 493, the only ones existing Worth 15000 Dollars today

There is an interesting side note about this set. The coins went to Batavia in 1802 but there was an intention to return these to South Africa in February 1803 when the Dutch regained the Settlements for a period of 3 years, but as war broke out again, it was judged better not to risk losing these coins at sea. Of the gold proofs the  $\frac{1}{4}$  and  $\frac{1}{2}$  guilder are even rarer than the 1 guilder a set is unobtainable today and eventually such a set might surpass a value of 15000
